### Town Report 2020

The Mission Statement of the Plymouth Fire Department remains the same as in past years, which is to protect the general public's life and property in the most efficient manner by reducing the effects of fire emergencies, medical emergencies, hazardous material incidents, special rescue emergencies and natural disasters. The Department will continue to train and provide a proactive, highly trained professional emergency responder for the residents and guest of the Town of Plymouth.

2020 was a year dominated by Covid-19 patient care and transport for the department with fire emergency incidents totaling 4007, total incidents of 8923 and total apparatus responses of 9,943.

### Significant Incidents and Major Events during 2020

The COVID-19 pandemic altered life for everyone. Fire and Rescue services did not waiver and met each challenge head on. Through partnerships with local businesses, private residents, and the Plymuth Emergency Operations Center, we were able to secure the much needed personal protective equipment (PPE) to protect our firefighters while they responded to well over 400 COVID-19 related calls for help. Through extraordinary effort with the support of the Selectboard, Town Management, the Finance Department, the Emergency Management Division and the Massachusetts Emergency Management Agency, the Fire Department's Administration was able to secure sufficient PPE supply chains to maintain an operational level of PPE using the Federal CARES act funds. The Department developed protocols for handling patients, working with the public, and encouraging safety starndards for our firefighters to maintain department manpower levels. The Fire Department maintained the capability to provide a continuous expected level of service throughout the pandemic.

### Personnel

### **Salute to Retirees**

### **Firefighter Steven Rice**

Appointed as a Firefighter May 17, 1987 Retired July 4, 2020 with over 33 years of Service

### **Firefighter Eugene Lane**

Appointed as a Firefighter July 12, 1987 Retired May 7, 2020 with over 32 years of Service

They performed their duties with pride and distinction during years of dedicated service to the citizens of Plymouth

# 7 Personnel Received Promotions in 2020

Captain Jerome Hart Promoted to the rank of Battalion Chief	12-4-2020
Captain Scott Manuel Promoted to the rank of Battalion Chief	12-15-2020
Lieutenant Douglas Pigeon Promoted to the rank of Fire Captain	04-04-2020
Lieutenant Michael Connor Promoted to the rank of Fire Captain	04-06-2020
Lieutenant Brian Cusack Promoted to the rank of Fire Captain	04-09-2020
Lieutenant Joshua Prada Promoted to the rank of Fire Lieutenant	04-08-2020
Firefighter Joshua Soell Promoted to the rank of Fire Lieutenant	12-17-2020

# **Resignations and Terminations**

Firefighter Chadwick Correa Firefighter Michael Ehnes

06-16-2020 04-30-2020

# New Buildings & Equipment

The Fire Department vacated the North Plymouth Fire Station on Spooner Street due to multiple building issues in 2019. With plans already set in motion for a replacement station, the department moved in to its newest station at 15 Hedge Road on July 13, 2020. This was built with the latest efficiencies and firefighter safety standards, built for the future, helping to reduce the cancer risk to firefighters and a design to streamline the delivery of emergency services.

# 

### North Plymouth Fire Station 2020

New Equipment:

Holmatro Hydraulic (Jaws of Life) rescue tools Portable Hydraulic lifts for Repair Shop

### Fire Department Resources, Apparatus & Equipment

7 Fire Stations staffed by 139 uniformed members, 5 civilian employees and another 2 civilians employees in the Emergency Management Division.

10 Pumper Engines
3 Aerial Ladders
1 Rescue Truck
9 Brush Breakers (Forest Fire Trucks)
3 Tankers
1 Military high water/off road vehicle
7 boats (1 Marine firefighting unit, 6 rescue boats)
2 Lighting Unit -trailer
1 Spill Control Unit
2 containment boom trailers
1 MDU – Mass Decontamination Unit
1 Fire Safety Education House Trailer
1 Dive Team Trailer Unit
1 ATV unit (off-road emergency response, patient transport)
3 Command & Staff vehicles

The Fire Department responded to 8,923 emergencies, which resulted in 9,943 fire apparatus responses involving 31,886 personnel responses within the town including Mutual Aid apparatus responses to adjoining communities.

Total Responses	8,923 incidents	
Fire Related	45%	EMS Related 55%

### Assessed Real Property Value protected by the Plymouth Fire Department

According to the Assessor's Office Plymouth has over \$9 Billion in Real Property, including dwellings, business property, vehicles, boats and marine vessels, etc... Property Loss in Plymouth due to fire in 2020 was reported at \$2,605,992. Without the prompt response of highly trained personnel and well-maintained equipment, fires would intensify, resulting in greater property loss, higher claims and risk ratings culminating in increased insurance premiums.

Type of Response	Number of Responses	Estimated Pr Damage fror	
Private Dwelling Fires	(1 or 2 family), including mobile homes	38	\$1,219,000
Apartments Fires (3 or	more families)	11	\$190,100
Hotels and Motels Fire	S	1	\$120,000
All other residential fir	es		
(dormitories, bo	parding houses, tents, etc.)	2	\$3,500
Public Assembly Fires	(church, restaurant, clubs, etc.)	4	\$22,000
Schools and Colleges H	Fires	1	\$50
Health Care and Penal	Institutions Fires		
(hospitals, nurs	ing homes, prisons)	3	\$503
Stores and Offices Fire	s	2	\$4,500
Storage in Structures F	ires (barn, vehicle storage garage)	3	\$15,000
Other Structure Fires (	outbuildings, bridges, etc.)	2	\$189
Fires in Highway Vehi	cles (autos, trucks, buses, etc.)	25	\$186,750
Fires in Other Vehicles			
(planes, ships, t	rains, construction or farm vehicles)	2	\$90,000
Fires Outside of Struct	ures excluding vehicles	100	\$400
(outside storage	e, crop, timber, etc.)		
Fires in Brush, Grass, V	Wild land (excluding crops and timber)	40	\$0
Fires in Rubbish, Inclu	ding Dumpsters (outside of structures)	21	\$0
All Other Fires		6	\$754,000

# FIRE PREVENTION and CODE ENFORCEMENT DIVISION 2020 End of Year Report

The Fire Prevention & Code Enforcement Division consists of a Battalion Chief and Lieutenant.

### **Mission Statement**

It is the responsibility of the Division to promote public safety by limiting the occurrence of fire, identifying conditions that may lead to ignition and abating hazards that jeopardize life safety. Our goal is to provide a fire safe home, work, and school environment. This is primarily accomplished through public fire safety education, enforcement of the Commonwealth's fire codes and regulations, Town by-laws and through inspections, plan review and permitting.

# **Covid-19 Impacts**

The impact of the pandemic for all aspects of society required adaptive policies and actions by the Plymouth Fire Department to continue providing service to the community. Modifications to inspection programs resulting from State ordered changes and Chief of Department Bradley's desire to support citizens of Plymouth, continued efforts to maintain education, business, and health care safety programs. These efforts have been altered as efforts to respond to varying ebb and surges of the pandemic occur. The Plymouth Fire Department and Fire Prevention Division continue their commitment to customer service and maintaining a fire safe community.

# **Training and Continuing Education**

Fire Inspectors attend monthly continuing education seminars, via video conferencing, sponsored by the Fire Prevention Association of Massachusetts. Current issues relating to fire codes and fire safety are shared among the Fire Inspectors along with updates from the State Fire Marshal Office. They also attend continuing educational training courses offered by the Massachusetts Fire Academy in Stow, MA. Training continued in various electronic forums during the Covid-19 Pandemic.

### **Construction Plan Review and Permits**

The fire department reviews construction plans to assure that adequate fire protection systems are being installed and maintained to all applicable codes and regulations. They consist of smoke and carbon monoxide detection systems, sprinkler systems, Bi-Directional Antennae (BDA) radio signal boosting systems, Fire Department Access, and Life Safety compliance for both residential and commercial properties. Fire Prevention Division personnel inspect completed projects prior to granting approval for Occupancy.

Many existing properties have undergone renovation and alteration to accommodate new businesses. Fire Prevention Division personnel conducted inspections to ensure compliance and safe occupancy.

Commercial and residential projects continued at a high level in the Town of Plymouth. Numerous commercial and multi-occupancy residential projects have been or are nearing nearing completion. New projects continue to be submitted for review and permitting as needed.

New commercial projects included:

- several large multi-residential buildings,
- a new medical office building,
- Fairfield Inn,
- Harbor Freight,
- Auto Zone
- Beth Israel Deaconess Hospital continues with its renovations to upgrade its facilities and support systems.
- There are many new restaurants that were opened throughout town.

Aside from the large amount of one and two family residential new construction and renovations, there are also several on-going residential multi-family developments which include Red Brook, Thorndike Homes 55+ communities, Harborside at Cordage (phase 1 has been completed, and Phase 2 has been submitted). The Pine Hills has also submitted plans for a new commercial/residential complex, the Oasis at Home Depot plans are underway, and Newfield Street development is nearing completion.

### **Inspections**

In addition to new construction, it is also the responsibility of the Fire Prevention Division to conduct Statutory annual inspections at all schools, nursing facilities, hospitals, clinical institutions, Plymouth County Correctional Facility, MCI-Forestry Camp, group homes, day care centers and other facilities licensed by the Department of Public Health and/or Department of Public Welfare. We issue certification of compliance for smoke & CO detectors for the sale of any residential units. We conduct inspections of oil-fired equipment, including all above and underground tank installations and removals, installations propane tanks. self-service gas stations, and hood suppression system. We oversee the department's Mercantile inspection program

### **Code Enforcement**

Complaints received from concerned citizens and observations made by department personnel during routine inspections and emergency responses initiate investigations by fire inspectors to determine if a fire hazard or code violation exists and to bring about compliance through education as a first resort. If an owner or tenant refuses to comply or bring conditions into compliance with fire or life safety codes, a fine will be assessed using non-criminal citations. Further non-compliance can result in complaints filed via the court system.

During 2020, the fire prevention division responded to numerous calls for issues such as: violation of open burning regulations, failure to install or maintain fire protection systems, blocked fire exits, and improper storage of flammables and combustibles. Citations were issued where required.

### **Fire Investigation**

Investigating the origin and cause of a fire is vital to determine whether the fire is accidental or intentional, the result of a malicious or criminal human act, design flaw or equipment malfunction, carelessness, or poor practice. By finding the circumstances responsible for ignition of the fire, we can attempt to reduce future occurrences of fire loss by changing behavior through education, altering product design or operation, or promulgating new ordinances to bring about code compliance.

Smoke and carbon monoxide detectors save lives and are required by law and as always, we stress the importance of possessing and maintaining these devices in homes. The trend for voluntary installation of residential fire sprinkler systems is a logical choice during new construction as it adds only a fraction of the square foot cost to the project. Residential fire sprinklers enhance life safety by reacting quickly to the heat of a fire, while it is still in the beginning stage and relatively small. Fire sprinklers give occupants a chance to exit to safety and are a proven life saver. An added benefit is that they control the fire and reduce property damage.

### Public Fire and Life Safety Education

The main goal of the S.A.F.E. (Student Awareness of Fire Education) program is to educate students in grades K-12, the public and the elderly about key fire and life safety behaviors to reduce fires and the likelihood of injury or death. Funding for this program revolves around an annual grant application submitted to the Massachusetts Department of Fire Services. This year, the Fire Prevention office received a grant for \$6848.00 in support of our S.A.F.E. program. Our S.A.F.E. program provides a full range of presentations reaching out not only to schools, but also to senior citizens through monthly meetings set up with the Council on Aging and Safety Fairs at Mobile home parks. The Fire Prevention office also received a grant for the Senior Safe Program totaling \$3826.00. Coordinated by the Council on Aging staff, several in-home inspections by our Fire Prevention Lieutenant were performed along with over a dozen public school visits – preCovid-19 restrictions. Covid-19 protocols limited additional activities. Video conferencing was employed to reach both schools and seniors for continued SAFE education.

The S.A.F.E. grant supports our fire safety trailer, fire station open house events, educating the public at health fairs, festivals, and community events. Fire Safety and Fall Prevention educational programs are also offered via video conferencing to seniors, Boys and Girl's organization, and other community organizations. There was one onsite outdoor visit to West Elementary school. Fire Prevention Week occurred via video conferencing.

Contests for fire prevention calendar artwork, conducted in concert with the State Fire Marshal and the Fire Prevention Division, saw students from Plymouth South Middle School win scholarships for the fire prevention calendar.

**Prior to Covid-19 restrictions, s**pecially trained firefighters present lessons on topics such as Learn Not to Burn, Preparing and Practicing Home Fire Escape Drills, Electrical Safety, Ice and Cold-Water Emergencies, Smoke and Carbon Monoxide Alarms and Home Safety Inspections.

# Projects for 2020

- Install Municipal Fire Alarm cable and equipment at the new Station 7
- Install Communications equipment at the new Station 7
- Completion of work for the Obery street and South Street project
- Numerous equipment upgrades in the Fire Stations and Fire Apparatus
- Removal of Municipal Fire Alarm and communications equipment from the Old Station
   7
- Several Pole transfers completed
- Upgrades to Aerial cable plant

I wish to thank all members of the Fire Department for their assistance on many of these projects.

# Training and Safety Division

# <u>Mission Statement</u>

The training division is responsible for the development, implementation, design, delivery and documentation of educational programs involving all members of the department. Training programs are intended to improve the firefighter's capabilities while performing emergency duties such as, emergency medical services, rescue and hazardous material response, as well as meeting the requirements and objectives of Federal and State agencies.

This responsibility includes needs assessment, curriculum development, and scheduling and records management. Courses on supervisory development, new products and apparatus and other specialized training are conducted on an as needed basis.

Minimum training standards are established by Local, State and Federal agencies. Training takes on a variety of forms, from self-study to mandatory department training. All training done by the Firefighter must be documented as required by law. This documentation provides the legal verification for training completed.

The Training division is responsible for the managing the wide range of training related documents, reports and records necessary for maintaining required certification for the department's emergency response personnel.

The Training Division ensures the department's training meets, OSHA, NFPA and ISO requirements as well as all State and federal regulations. This responsibility requires the Training Officer to work with State agencies including The Office of Emergency Medical Services and the Division of Fire Services.

The Training Officer coordinates and schedules Department's In-house Drills. The purpose of this drill packages is to review basic suppression and EMS materials that aid personnel with maintaining knowledge of specific topics. This training is delivered to personnel by the company officers.

In addition to this in-service training the Training Officer also serves as the department's drill instructor for all newly hired firefighters. This recruit-training program introduces all probationary firefighters to the basic skills necessary to survive and function in the hostile environment of a structure or forest fire. This program prepares the individual to meet the standards set by the NFPA for certification for Firefighter 1 and 2.

The Training Division constantly evaluates and coordination training with other divisions within the department. The training of members on new equipment and implementation of procedures for new equipment are coordinated by the Training Officer.

The training Officer is also the Department's Safety Officer. The Safety Officer's duties include responding to fires and hazardous incidents to oversee Scene Safety. The Training Officer also serves as the department's state mandated Infection Control Officer and is the Department's liaison to the Jordan hospital. The Infection Control Officer is responsible to enforce policies and procedure to ensure department member's health safety and tracking and documenting any exposures and injuries that occurred while on duty as required by State and Federal regulations.

# **Recruit Training For New Hires**

In 2020 the Training Division had a recruit training class. Each class eight weeks in length. These classes get the new recruit ready to operate as a probationary firefighter until his or her Mass Fire Academy slot opens up. This course not only tests new recruits physically, but mentally. The new recruits learn nomenclature of all firefighting gear and tools, but also hands on practical evolutions in Search and Rescue, Vehicle Extrication, First Aid, CPR and First Responder qualifications. Recruits are taught Wildland Fire Operations and a Chainsaw Safety Course we have developed with State Fire Warden and his Class2 Sawyers. Due to the fact that every station has a boat as well as the Department Fire Boat, we have the recruits go through a Safe Boating Course with the Mass Environmental Police and get certified. 2020 Recruit Class had 6 recruits,5 finished.

The head of the Training Division also is in charge of the Underwater Recovery Unit. This team consists of 30 members, Divers, Tenders, and Support personnel. Each member has gone through rigorous training and certifications through Lifeguard Systems Public Safety Diving. The team members have International Certifications in Public Safety Diving/Tending, Moving Water Operations, Underwater Vehicle Extrication, Black Water, Full Face Mask and Drysuit Certified as well as Ice Diving Search and Recovery. The Underwater Recovery Unit also has a Side Scan Sonar Team that utilizes the Edgetech 4125 Side Scan Sonar for body recovery or evidence location. The Team has worked alongside of mutual aid towns, The Mass State Police, Plymouth County Tech Rescue, Barnstable County Tech Rescue, Plymouth Police and Mass Environmental Police as well as the Coast Guard and Harbormaster of Plymouth and mutual aid towns.

Training and Safety Division won MIIA grants for high visibility DOT vests as well as vehicle extrication gloves and eye protection.

Training and Safety Division has implemented Mass Fire Academy instructors to conduct Cancer in the Fire Services to all department personnel. This is to combat the enormously high rates of occupational cancer. D-Con protocols using HERO WIPES and detergents are now implemented during and after fires and any event where firefighters may be exposed to toxins. The department upgraded their SCBA Mask fit tester to the new TSI Porta Count Fit Tester. SCBA Masks are fitted with Scott Thermal Imaging Cameras for extra safety. Personnel have been issued new helmets with washable liners to comply with Cancer Protocols as well as particulate hoods.

Due to the tragic events of today's world with mass shootings. All personnel have had added training in gunshot wounds and tourniquets as well as the use of ballistic vests and headgear. Other added training was pet CPR and oxygen masks for pets now carried on all apparatus.

# Apparatus Repair & Maintenance Division

The mission of the Apparatus Repair and Maintenance Division is to properly supply and maintain all of the department's emergency apparatus while ensuring compliance with National Fire Protection Association, Federal Motor Vehicle Safety Standards, and Massachusetts General Laws to provide safer equipment for departmental personnel and the community.

In addition to general heavy truck powertrain components strong knowledge of fire pumps, hydraulics, aerial systems, and electronic multiplex systems are required to maintain such specialized equipment. Fire apparatus must be properly maintained to obtain operational readiness at all times.

The staff maintains a fleet of over 40 specialized fire apparatus; such as pumping engines, aerial ladder trucks, brush-breakers, rescue trucks, specialty units, trailers, marine response units, command vehicles, support vehicles, small engines, and fire-fighting tools. Responses to fire scenes take place for emergency repairs and technical assistance to render operational professionalism. During the year annual third party non-destructive testing of aerial devices, ground ladders, and inspection of all vehicles to conform to federal and state agencies takes place under their supervision.

Last year's annual Town Meeting funded the third mechanic position for this division to expand with the departments growing maintenance requirements. A revolving annual cooperative position with the Plymouth School Technical Program has begun and has been a great success to date. Apparatus mechanics attend monthly educational training seminars and annual certification testing hosted both by the New England Fire Apparatus Maintenance Association and Emergency Vehicle Certification Commission. Staff is thoroughly involved in the technical design and specification development of new apparatus, safety updates, pre-delivery vehicle inspection, final acceptance testing and operational training for fire department personnel.

### **Office of Emergency Management**

### Mission Statement

The mission of the Plymouth Office of Emergency Management is to coordinate efforts to prevent, mitigate, prepare, respond, and recover from local emergencies and disasters. This is accomplished by working with Town Departments and other partnerships to ensure plans, resources, and procedures are developed and maintained to safeguard the public against community vulnerabilities and the effects of these hazards.

### **Narrative Statement**

2020 brought unprecedented challenges for Emergency Management Division. The staff wants to take an opportunity to share with the community for what is believed to have been a very successful year. The year began with completing a very comprehensive planning effort for the many events planned for the Plymouth 400 celebration throughout the year. The effort had been ongoing in conjunction with all the Town's public safety departments and many outside agencies to assure all contingencies were addressed.

The emerging COVID-19 pandemic put a halt to all projects. On March 17, the Emergency Operations Center was closed to the public throughout the rest of the year to ensure a virus-free emergency operations center. Always ready, the capability to provide continuous emergent town operations was paramount to assure continuity of operations of critical town infrastructure in case of major contamination in other Town buildings.

Personal Protective equipment for the Town's Fire Fighters and Police Officers became in short supply as the pandemic worsened. The Division worked with the Massachusetts Emergency Management Agency to acquire the necessary equipment and disinfectant supplies to offset the limited supply available commercially. All in all, through response data and pandemic projections, the initial shortfall had been overcome and anticipated reserve has been received to meet future demands.

Roni Bosse, Administrative Assistant for the Division, with her a wealth of office management experience with a strong background in financial management and fiscal accountability has worked with the Finance Department to compile, track, and verify all Town COVID-19 related expenses. This accounting is crucial to assure proper Town documentation, which has led to the reimbursement of most of the pandemic related expenses from Plymouth County through their management of the Coronavirus Aid, Relief, and Economic Security (CARES) Act appropriation.

As in 2019, major storms took a different direction and spared Plymouth from serious damage in 2020. However, preparedness, response, potential sheltering, and recovery planning were always at the forefront from January through March. In June, national weather forecasters predicted a very active hurricane season which initiated early storm preparation for the second half of the year. The predictions were accurate as the National Oceanic and Atmospheric Administration said the 2020 Atlantic Ocean hurricane season set multiple records while producing a record 30 named storms. Fortunately, Plymouth was not in the path of any major weather activity.

The Pilgrim Nuclear Power Station shut the reactor down on May 31, 2019 and was sold to Holtec/CDI. In 2020, Holtec/CDI has been decommissioning the facility in accordance with the Nuclear Regulatory Commission and other regulations. The Division has remained vigilant to assuring that public safety continues to be the priority under the overall command and direction of Fire Chief Ed Bradley.

Pilgrim's closure has not dampened our efforts to better prepare the community. As the Massachusetts Radiological Emergency Response Plan has been dis-continued, the Division has developed a new local Radiological Response Plan, which integrates nicely with the Town's Comprehensive Emergency Operations Plan. This new plan is consistent with other established state and federal all-hazard plans to assure compliance with the National Incident Management System.

In closing, other Town planning initiatives which included participation from the Division were the Climate Ready Healthy Plymouth project and the beginning stages of the five-year update of the Town's Natural Hazard Mitigation Plan, which is scheduled to be completed in 2021.
